

The Art of Bamboo Spinning

ABOUT

All products are 100% handmade (except electrical parts) of bamboo, bronze, teak wood and other materials. The products are unique and have no complete analogues in the world. The product range includes bamboo pendant lamps, floor and table lamps with bamboo shades on antique bronze stands and teak wood tripods, as well as interior decor and dinner ware. Special spinning technique is applied to bamboo lamellas in order to create bamboo parts of products. Non-toxic food-grade finishing is used for coating the surface of shaped bamboo parts. The Bamboo products are compatible with many styles such as minimalism, industrial, rustic, loft, bungalow, balinese, boho, mediterranean and so on. Bamboo, the main material, has little environmental impact — in just 2 years, bamboo grows
to an adult plant. Customization of original models as well as production according to client's design are provided.

VERSA CLUSTERS

customizable chandeliers

We produce clusters of ceiling lights including different combinations of VERSA lampshades (as well as other lampshades) and frames of teak wood and bronze (similar to VERSA chandelier in p. 7). Each cluster can include as many lampshades as you need. Frame can have round ◯, oval ⬭, square □, rectangular ▭ shape, etc. Total height of cluster can be adjusted according to international standard.
